

CREATE YOUR UNIQUE

Snowflake!

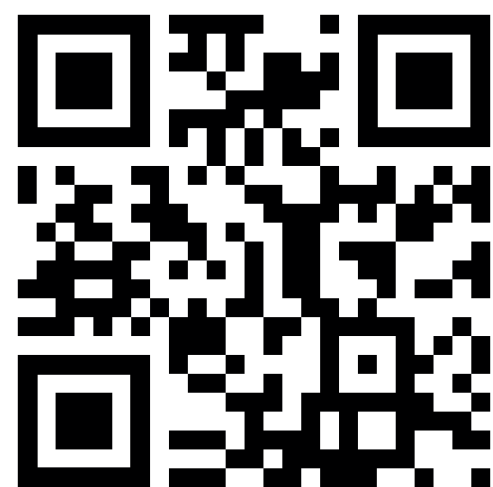

Use our interactive snowflake generator to create a unique snowflake and see it projected on the big screen here on Green Dragon Square.

Scan the QR code below to open the snowflake generator on your mobile phone.

Design a snowflake and press the 'share' button to send it to the big screen. Then watch your snowflakes arrive.

By agreeing to share your location then it will also be added to the map of where the snowflakes came from.

Share the snowflake creator with your friends and family around the UK, and the world. Let's see how many people we can get to send a snowflake to LEICESTER!
